

Smoke-free Dining in Bergen County

**Directory
2003**

**Bergen County Health Officers Tobacco Coalition
& Bergen County Department of Health Services**

FOREWORD

The smoke-free restaurants listed in this directory were originally compiled as a result of the Food Establishment Survey conducted by the **Bergen County Health Officers' Tobacco Coalition** in December 2000. Respondents surveyed included any food establishment with seating. *Smoke-free* was defined as all indoor areas of a facility entirely free of tobacco smoke.

Additional restaurants have been added to the directory as a result of outreach efforts by health officers and registered environmental health specialists.

The directory is organized alphabetically by town, and within each town, alphabetically by restaurant. It is highly recommended that before visiting any listed restaurant, the patron place a phone call to confirm the establishment's smoke-free status.

The **Bergen County Health Officers' Tobacco Coalition** acknowledges and thanks those citizens and organizations that have contributed to the promotion and encouragement of smoke-free dining countywide. A partner in the initiative has been the Bergen County Communities Against Tobacco (CAT) Coalition.
